POST-GRADUATION STATUS

Information obtained about graduates from the previous graduating class is compiled and presented each year in the *Ursinus College Post-Graduate Destination Report*. This report provides detailed information on employment patterns and graduate/professional school placements for the Class of 2015. Sources of information for this report include graduate self-reports (i.e., written survey, online survey, phone survey, and email), social media and faculty reports of student status.

In recognition of the growing importance of institutional outcomes assessment, the National Association of Colleges and Employers has established national standards and protocols to guide higher education institutions in collecting and disseminating data on career outcomes of graduates. To comply with these new national standards, we were required to change our timeline for data collection and reporting. The new standards provide a common deadline and consistent metric to be used in reporting and comparing summary outcomes from higher education institutions across the country. We are now collecting data six months after graduation rather than 12 months after graduation. We anticipate an earlier data collection deadline will affect outcomes data.

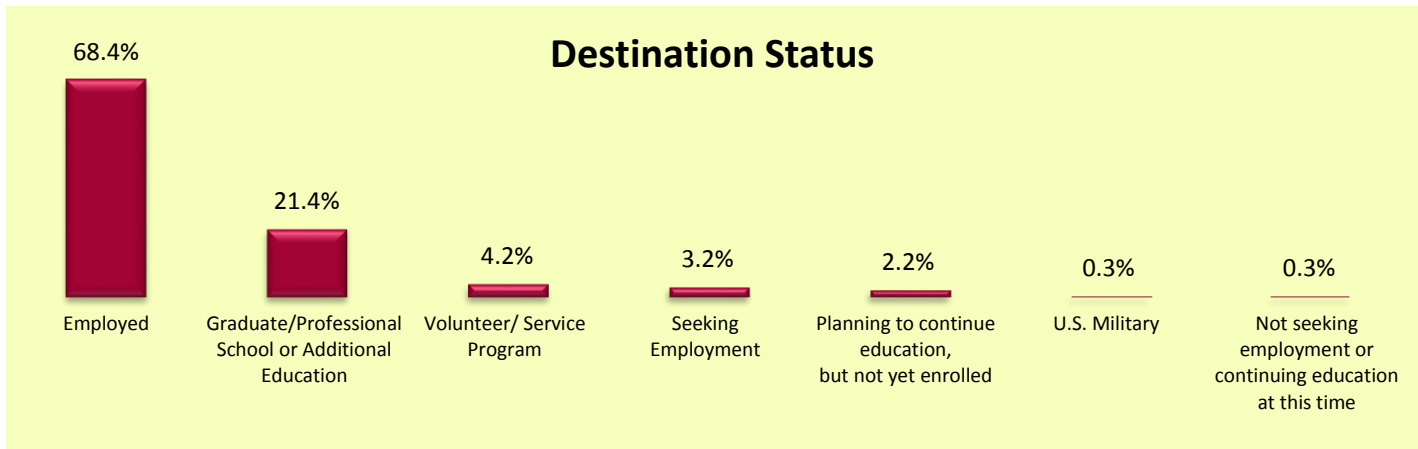

Information for the Class of 2015 report is based on data collected by **December 31, 2015** with a knowledge rate of 87%¹. The Ursinus career outcomes rate is 94%.²

The information below depicts the post-graduation status of 313 members of the Class of 2015. For a breakdown according to major, please see **Appendix A**.

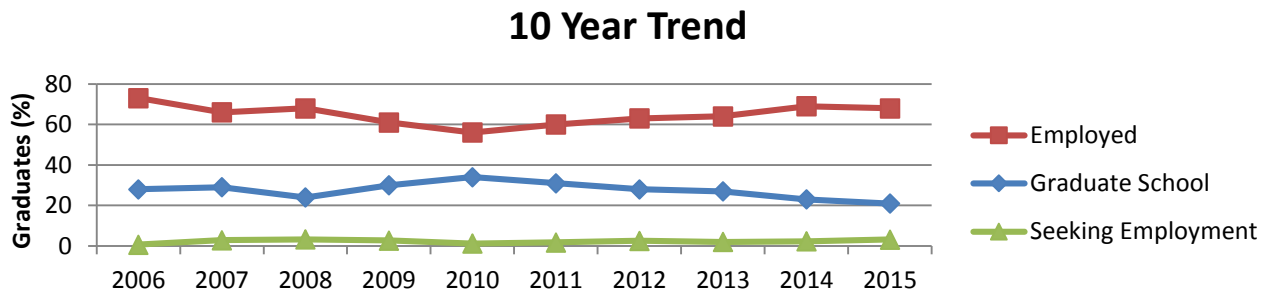

<i>STATUS</i>	<i>Knowledge Rate # GRADUATES</i>	<i>Knowledge Rate % GRADUATES</i>
Total Employed	214	68.4%
Full Time	170	54.3%
Part-Time & Temporary	44	14.1%
Graduate/Professional School or Additional Education	67	21.4%
Planning to continue education, but not yet enrolled	7	2.2%
Service/Volunteer	13	4.2
Military	1	0.3%
Unemployed & seeking employment	10	3.2%
Not seeking employment or continuing education at this time	1	0.3%

¹ Knowledge Rate: This is the percentage of the graduating class for which an outcomes destination is known.

² Career Outcomes Rate: This is the number of graduates who have landed in either any of the employment categories plus service and military plus continuing education divided by the number of students for whom an outcome is known.

Trends 2006-2015

The following table compares the results from the 2015 survey with results from studies conducted over the previous ten years.
