Important Registration Tips

➤ You MUST use Student Planning in Self-Service to plan/create your schedule before you can register.

➤ Do not wait until the last minute to create your plan/schedule!
If you intend to register at midnight you should have your plan ready prior to 11:30pm.

➤ You will NOT be able to register if you do not have the sections planned on your schedule.

➤ After using the [Register] or [Register now] buttons be sure to read any messages on your screen, especially in the individual course boxes on the left. Be sure to scroll all the way down in this section to see all messages. This is where you will see a closed class with the option to waitlist, any corequisite labs or screenings, or any conflicts (conflicts also reflected in the grid).

➤ Use your RA's as a resource if you need help creating your plan/schedule.
